

## LINEAR EDGEBANDER

**TURANLAR UK**DESCRIPTION

The T-EB-155 is one of the professional series of edgebanders manufactured by Turanlar. The T-EB-155 performs perfectly with its PLC Touch Screen, Pre-Milling, Top and Bottom Trimming units, Radius Scraping and Buffing processes as well as our standard Teflon coated EVA Hotmelt glue pot system found on the majority of the Turanlar UK Edgebander range. It can apply all common edging materials between 0.4-3mm (PVC, Veneer, ABS, Melamine & Solid Wood etc.) all up to 50mm wide panels. It has a feeding speed of 15m/min. The T-EB-155 has corner rounding capabilities with the trimming units provided on the machine. The machine is manufactured to the highest European standards expected within the UK market. There is also the option of having a separate PUR Glue system with this machine at an extra cost. Please get in touch if you require more details and pricing.
