

## NON-LINEAR EDGE BANDER - TRIMMER

**TURANLAR UK**DESCRIPTION

The T-FE-140 is used for trimming edges up to 2-3mm in thickness and 50mm height with a double motor after manual edge banders. The trimming head can move up and down and is also very easy to adjust. The T-FE-140 edge trimming machine is ideally suited to work together with either the T-EB-130 or T-EB-170 Nonlinear edgebanders. Please get in touch if you require more details and pricing.
